ABOUT US

Whiteline Industries Colombo (Pvt) Ltd is a family-owned business established in 1995, initially as an importer of household plasticware and glassware in Sri Lanka. In 2007, we transitioned into local manufacturing, launching the Feather® brand of plastic cleaning tools.

Today, we produce over 300,000 units per month, supplying a wide network of wholesalers, modern trade outlets, and corporate clients across the country. Our product portfolio includes 75+ SKUs—from brooms and brushes to mops, wipers, dustpans, and scourers—making Feather® the most trusted cleaning tools brand in Sri Lankan homes.

We continue to invest in technology, expand our product range, and explore new business areas aligned with our strengths, driven by a strong commitment to quality, sustainability, and innovation.

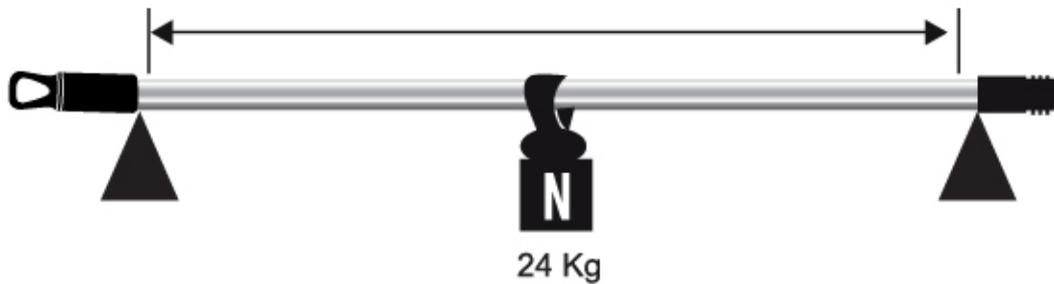

QUALITY

Quality is an abstract concept, nobody can see or touch it, but everybody feels that a Feather product has a relevant content of quality because we have always given a priority to the respect of technological rules and to the use of good materials.

Our products are made of the highest-grade virgin resin that is combined with the finest monofilament that come together to create high quality brooms and brushes. Each item that leaves the factory has been meticulously crafted and polished to ensure the unique metallic shine has been achieved.

METAL HANDLE STRENGTH TEST

Average force to bend a tube on 1m of free length.
